

CRS Newsletter December 08, 2020

Dear Members and Fellows of the CRS, dear subscribers of the CRS mailing list

With this **last newsletter in 2020** we provide information and activities related to reproducibility and scientific integrity. You will also find information about activities conducted by the CRS.

Content

1. **ReproducibiliTea on December 10, 26:** “Challenges and future directions for representations of functional brain organization”
2. **Scoping Report of the Directorate-General for Research and Innovation (European Commission):** Reproducibility of scientific results in the EU
3. **Publication alert:** “Replication power and regression to the mean”, new Reproducibility Note in Significance Magazine on December 2nd
4. **UZH researchers:** if you are affiliated with the CRS, please add the **CRS as an affiliation on your publications** such that we may eventually be able to highlight the CRS publication output and its diversity through ZORA

1. **ReproducibiliTea December 10**, 16:00-17:00h, Simon Schwab, CRS.
“Challenges and future directions for representations of functional brain organization”.
Register & join:

2. **Scoping Report of the Directorate-General for Research and Innovation (European Commission):** [Reproducibility of scientific results in the EU](#) by Baker, Lee ; Lusoli, Wainer ; Jaško, Katarzyna ; Parry, Vivienne ; Pérignon, Christophe ; Errington, Timothy M ; Cristea, Ioana Alina ; Winchester, Catherine ; MacCallum, Catriona J ; Šimko, Tibor. This report contains a great summary and more importantly many actionable points. It's a great read!
3. **Publication alert:** new Reproducibility Note in the Significance Magazine: "Replication power and regression to the mean" By Leonhard Held, Samuel Pawel, Simon Schwab
<https://rss.onlinelibrary.wiley.com/doi/10.1111/1740-9713.01462>
4. **UZH researchers:** if you are affiliated with the CRS, please add the **CRS as an affiliation on your publications** such that we may eventually be able to highlight the CRS publication output and its diversity through ZORA. This is crucially important in order to show our broad disciplinary representation and for us to more easily find you and your expertise in case of need. We are in the process to have our own designated community in ZORA such that this will be even easier in the future.

Let us know about publications or any other news to be alerted here!

Have a well-deserved and restful year-end break and see you in 2021!
