

CRS Newsletter September 15, 2020

Dear Members and Fellows of the CRS, dear subscribers of the CRS mailing list

With this newsletter we provide information and activities related to reproducibility and scientific integrity. You will also find information about activities conducted by the CRS. For future newsletters, **please let us know of any information that is worthwhile spreading.**

Content

1. **ReproducibiliTea on Thursday:** "Reproducibility of animal research in light of biological variation"
2. Graduate Campus Annual Ceremony on "**Academic Authorship**", 29.9.
3. Launch of the **Swiss Reproducibility Network**
4. **Open Science Conference 2021** (17-19 February 2021, online)
5. Publication on **Discrepancies from registered protocols and spin**
6. Publication on **Public perception of the replication crisis in Germany**

1. Recall the ReproducibiliTea session of this Thursday "**Reproducibility of animal research in light of biological variation**", Bernhard Voelkl, University of Bern, September 17, <https://www.nature.com/articles/s41583-020-0313-3>
Join at: <https://uzh.zoom.us/j/94759142903?pwd=aCs2MFFOcWJFdTRXMW9SLyt6M2kzUT09>
2. Graduate Campus Annual Ceremony on "Academic Authorship", 29 September 2020, 6.30pm, UZH City Campus
Academic Authorship - how does the „Publish or Perish“ mantra shape our understanding of authorship? Join the discussion at the Graduate Campus Annual Ceremony. <https://www.grc.uzh.ch/en/events/annual-events/Jahresveranstaltung2020.html>
3. The **Swiss Reproducibility Network** will be officially launched end of September, you can have a sneak peek at the website: <https://www.swissrn.org>
4. The **Open Science Conference 2021** is the 8th international conference of the Leibniz Research Alliance Open Science. The annual conference is dedicated to the Open Science movement and provides a unique forum for researchers, librarians, practitioners, infrastructure providers, policy makers, and other important stakeholders to discuss the latest and future developments in Open Science.
This year's conference will especially focus on the effects and impact of (global) crises and associated societal challenges, such as the Corona pandemic or the climate change, to open research practices and science communication in the context of the digitisation of science. And vice versa, how open practices help to cope with crises.
Call for Speakers and Poster Presentations
<https://www.open-science-conference.eu/calls2021/>

5. Meta research project with participation from the group of CRS member Claudia Witt (Jürgen Barth):

Discrepancies from registered protocols and spin occurred frequently in randomized psychotherapy trials—A meta-epidemiologic study

<https://www.sciencedirect.com/science/article/pii/S0895435620302080?dgcid=author>

6. Science communication project with CRS member Mike Schäfer:

The “replication crisis” in the public eye: Germans’ awareness and perceptions of the (ir)reproducibility of scientific research

<https://journals.sagepub.com/doi/full/10.1177/0963662520954370>
