

CRS Newsletter June 3, 2021

Dear Members and Fellows of the CRS, dear subscribers of the CRS mailing list

With this newsletter we provide information and activities related to reproducibility and scientific integrity. You will also find information about activities conducted by the CRS.

Content

1. **Annual Meeting of the Swiss Reproducibility Network and European Reproducibility Summit:** September 30th and October 1st, 2021
 2. **Metascience 2021:** A global virtual conference, September 16-18 and 23-25, 2021
 3. **Keynote on Culture change toward more open, rigorous, and reproducible research** by Brian Nosek, 8.6.2021
 4. **Publication Alert:** Statistical programming: Small mistakes, big impacts
 5. **Publication Alert:** The MDAR Framework for transparent reporting in the life sciences
 6. **Publication Alert:** Nonreplicable publications are cited more than replicable ones
 7. **Nature Editorial:** Good research begins long before papers get written
-
1. The **Swiss Reproducibility Network (SwissRN) annual meeting** will take place on October 1st. Please let us know if you are interested in becoming active in the Zurich local node and want to participate in the meeting. It will be (very probably) combined with a **European Reproducibility Summit** on September 30th, where leaders from existing and from emerging Reproducibility Networks meet for collaboration, alignment and networking.
 2. The **Metascience 2021** is a global virtual conference on September 16-18 and 23-25, 2021. It is a point of convergence to share knowledge, foster community, and define a roadmap of research and intervention priorities to accelerate science. For more information visit the website <https://metascience2021.org/>. SwissRN is a conference partner of Metascience 2021.
 3. **Keynote on Culture change toward more open, rigorous, and reproducible research** by **Brian Nosek** at the virtual meeting of the “Gesellschaft für Empirische Bildungsforschung”, 8.6.2021, 15:30-17:00. More information available here https://www.digigebf21.de/frontend/index.php?folder_id=3857&page_id=#Nosek
 4. **Publication Alert:** Statistical programming: Small mistakes, big impacts <https://rss.onlinelibrary.wiley.com/doi/epdf/10.1111/1740-9713.01522>
 5. **Publication Alert:** The MDAR (Materials Design Analysis Reporting) Framework for transparent reporting in the life sciences: <https://www.pnas.org/content/118/17/e2103238118>
 6. **Publication Alert:** Nonreplicable publications are cited more than replicable ones <https://advances.sciencemag.org/content/7/21/eabd1705>
 7. **Nature Editorial:** Good research begins long before papers get written - Publishers are redoubling their commitment to transparency and reproducibility <https://www.nature.com/articles/d41586-021-01167-9>
